

EXHIBIT 1

FEDERAL OIL & GAS PARCELS LOCATED WITHIN OR PARTIALLY WITHIN INVENTORIED ROADLESS AREAS									
Parcels Issued on or after January 12, 2001									
This catalog of parcels was compiled from publicly available sources including lease sale notices and result reports, the LR2000 database, and GIS data from BLM/USFS's Geocommunicator website. Although great care was taken in compiling this list, it is not represented to be an exhaustive listing of all parcels located within or partially within Inventoried Roadless Areas. Only the western BLM Administrative States were reviewed; relatively complete data was only available for the Rocky Mountain region.
